

REMARKS

Claims 1-9, 11-15 and 39 are pending; claims 10, and 16-38 are canceled without prejudice. Claim 1 is herein amended to include features of claim 10, and thus claim 3 is canceled. Claims 16-38 are canceled due to a restriction requirement being made final.

Claim 10 was objected to as being dependent upon rejected base claim 1 and the Office Action stated claim 10 would be allowed if rewritten in independent form. Therefore, amending claim 1 to include the features of claim 10 should make claim 1 and its dependencies (claims 2-9 and 11-15) allowable. Claim 39 was previously allowed. Therefore, all pending claims are now allowable.

The rejections of the claims over Hagen (DE 100 64 691) are now moot and therefore, will not be addressed.

The Office Action states that acknowledgement is made of a claim for foreign priority under 35 U.S.C. 119 (a)-(d) or (f), but that none of the certified copies of the priority documents have been received. On October 27, 2004, Applicants requested our outside counsel firm in Malaysia to send us a certified copy. None was received. On January 6, 2005, Applicants again inquired as to the certified copy. The firm responded that they have not yet received it from the Malaysian government. Therefore, Applicants are in the process of obtaining the Malaysian certified copy and will submit it to the USPTO once received.

Applicants believe the present Application is currently in a condition of allowance. Applicants earnestly solicit allowance of all pending claims. Please contact Applicant's practitioner listed below if there are any issues.

If Applicant has overlooked any additional fees, or if any overpayment has been made, the Commissioner is hereby authorized to credit or debit Deposit Account 503079, Freescale Semiconductor, Inc.
